

Background of the App

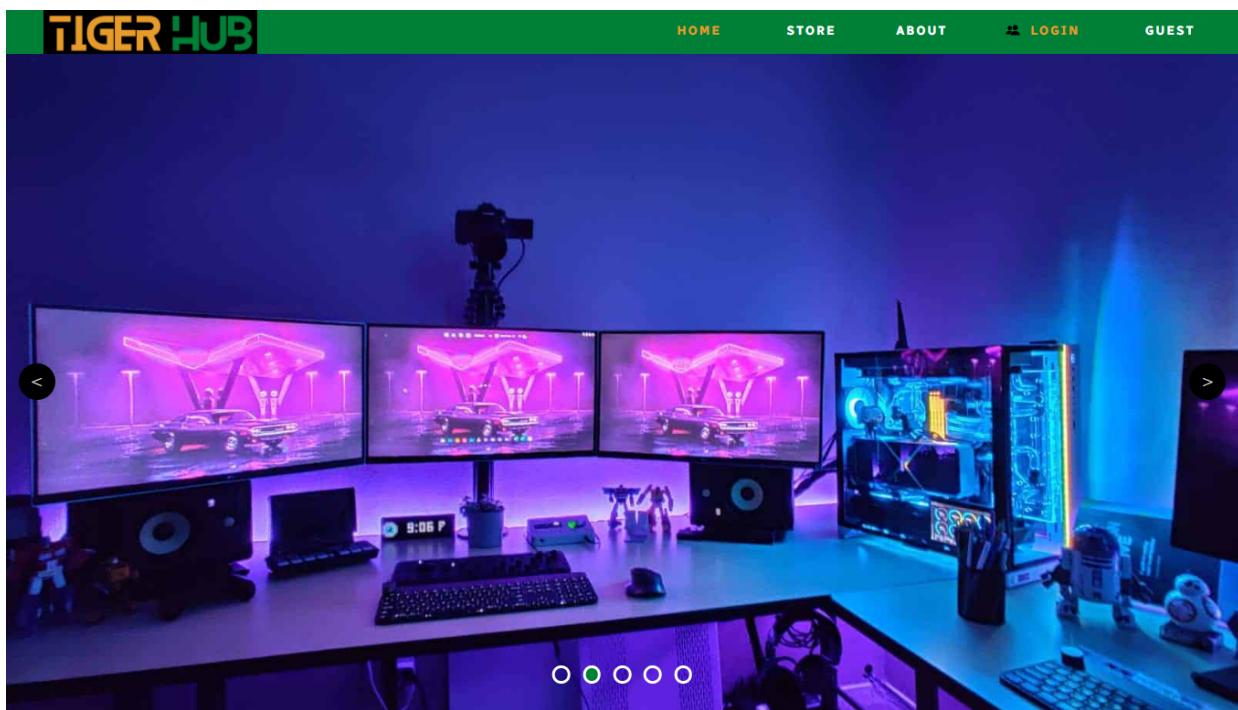

The TigerHub online store is made for the ease of PC users to their liking. This application gives the users ease of access to buying their own PC parts and building themselves. Almost every PC component brand is represented in this Hub, as well as a few IT networking items and a few tech accessories. In keeping with its name, Tiger Hub is a one-stop shop for all of your PC components and accessories.

Monetization

To raise consumers' awareness of the Tiger Hub brand, promotions are carried out in many mediums, including advertisements, internet advertisements, and websites. Tiger Hub engages in sales promotions and special offers in order to maintain its consumers' interest. Another method of advertising is self-promotion, in which Tiger Team spends the majority of the advertising budget. In addition, the online store will also be offering coupons from partnered merchants to encourage more purchases.

TigerHub is willing to collaborate with other businesses and get paid by our services for them. This will give the online store a chance of gaining popularity within the community and having more meaning to its name around the area up to the whole country.

The image shows a screenshot of a web application interface titled "TIGER HUB". The header includes navigation links: HOME, STORE, ABOUT, admin2, and LOGOUT. A central modal window titled "ADMIN CONTROLS" contains three green rounded rectangular buttons labeled "User Record", "Admin Record", and "Products Record". Below these buttons is a text input field with the placeholder "Enter Date of Sales Report:" and a date picker icon. At the bottom of the modal is a green button labeled "Sales Report". The background of the page features a dark blue and orange abstract circuit board pattern.
